

Grimsby District Secondary School

Canadian and World Studies

Geography

Geography of Canada

CGC1D1

This course explores Canada's distinct and changing character and the geographic systems and relationships that shape it. Students will investigate the interactions of natural and human systems within Canada, as well as Canada's economic, cultural, and environmental connections to other countries. Students will use a variety of geotechnologies and inquiry and communication methods to analyse and evaluate geographic issues and present their findings.

Géographie du Canada

CGC1DF

This course is part of the Extended French Package. This course is delivered in French and is the same curriculum as the Grade 9 Geography of Canada - Academic course. For a more details review CGC1D1's course description.

COURSE NOTE: This courses is part of a package for students in the Extended French Program.

CREDIT: 1

TYPE: Academic

GRADE: 9

COREQUISITES: If you take this course, you must also take FEF1D1 - Extended French

If you take this course, you must also take SNC1DF - Sciences

If you take this course, you must also take ENG1D1 - English

If you take this course, you must also take MPM1DF - Mathématiques

Geography of Canada

CGC1P1

This course focuses on geographic issues that affect Canadians today. Students will draw on personal and everyday experiences as they learn about Canada's distinct and changing character and the natural and human systems and global influences that shape the country. Students will use a variety of geotechnologies and inquiry and communication methods to examine practical geographic questions and communicate their findings.

GRADE: 9

Physical Geography: Patterns, Processes, and Interactions

CGF3M1

This course examines the major patterns of physical geography and the powerful forces that affect them. Students will investigate the dynamic nature of the earth, the evolving relationship between the planet and its people, and the factors that limit our ability to predict the changes that will occur. Students will use a wide range of geotechnologies and inquiry methods to investigate the distribution and interaction of the elements of their physical environment and to communicate their findings.

PREREQUISITE: CGC1D1 - Geography of Canada **or** CGC1P1 - Geography of Canada **or** CGC1DF - Géographie du Canada

Regional Geography: Travel and Tourism

CGG3O1

This course focuses on travel and tourism as the vehicle for studying selected world regions. Using a variety of geotechnologies and inquiry and communication methods, students will conduct and present case studies that develop their understanding of the unique characteristics of selected world regions; the environmental, cultural, economic, and political factors that influence travel and tourism; and the impact of the travel industry on communities and environments around the world.

Geomatics: Geotechnologies in Action

CGO4M1

This course gives students experience in using geotechnologies to develop solutions to real-world problems involving physical and human geography. Students will extend their knowledge of geomatics in the areas of cartography, geographic information systems (GIS), the global positioning system (GPS), and remote sensing. Students will develop critical thinking and communication skills as they apply geotechnologies and geographic inquiry methods to devise and present ways of improving conditions for people and the environment.

TYPE: University/College

GRADE: 12

PREREQUISITE: Any University, University/College, or College preparation course in Canadian and World Studies, English, or Social Sciences and Humanities.

The Environment and Resource Management

CGR4M1

This course investigates the complexity and fragility of ecosystems and the pressures human activities place on them. Students will examine ecological processes, the principles of sustainability, and strategies for resource management, with a focus on the challenges of environmental degradation and resource depletion. Students will use geotechnologies and skills of geographic inquiry to explain and evaluate various approaches to achieving a more sustainable relationship between people and their environment.

GRADE: 12

PREREQUISITE: Any University, University/College, or College preparation course in Canadian and World Studies, English, or Social Sciences and Humanities

World Geography: Urban Patterns and Interactions

CGU4C1

This course examines cities around the world and the social, political, cultural, environmental, and economic factors that shape them. Students will study urban structures and systems, the impact of migrations on cities, and the impact of cities on the environment. Students will use geotechnologies and apply geographic concepts and inquiry methods to analyse issues and problems related to urban development and to formulate potential solutions.

CREDIT: 1

TYPE: College

GRADE: 12

PREREQUISITE: Any University, University/College, or College preparation course in Canadian and World Studies, English, or Social Sciences and Humanities

Canadian and World Issues: A Geographic Analysis

CGW4U1

This course examines the global challenges of creating a sustainable and equitable future, focusing on current issues that illustrate these challenges. Students will investigate a range of topics, including cultural, economic, and geopolitical relationships, regional disparities in the ability to meet basic human needs, and protection of the natural environment. Students will use geotechnologies and skills of geographic inquiry and analysis to develop and communicate balanced opinions about the complex issues facing Canada and a world that is interdependent and constantly changing.

TYPE: University

GRADE: 12

PREREQUISITE: Any University, University/College, or College preparation course in Canadian and World Studies, English, or Social Sciences and Humanities.

History

Canadian History in the Twentieth Century

CHC2D1

This course explores the local, national, and global forces that have shaped Canada's national identity from World War I to the present. Students will investigate the challenges presented by economic, social, and technological changes and explore the contributions of individuals and groups to Canadian culture and society during this period. Students will use critical-thinking and communication skills to evaluate various interpretations of the issues and events of the period and to present their own points of view.

If you take this course, you must also take CHV2OH - Civics

If you take this course, you must also take ENG2D1 - English

Canadian History in the Twentieth Century

CHC2P1

This course explores some of the pivotal events and experiences that have influenced the development of Canada's identity as a nation from World War I to the present. By examining how the country has responded to economic, social, and technological changes and how individuals and groups have contributed to Canadian culture and society during this period, students will develop their ability to make connections between historical and current events. Students will have opportunities to formulate questions, locate information, develop informed opinions, and present ideas about the central issues and events of the period.

PREREQUISITE: CGC1D1 - Geography of Canada **or** CGC1DF - Géographie du Canada **or** CGC1P1 - Geography of Canada

Civics

CHV2OH

This course explores what it means to be an informed, participating citizen in a democratic society. Students will learn about the elements of democracy in local, national, and global contexts, about political reactions to social change, and about political decision-making processes in Canada. They will explore their own and others' ideas about civics questions and learn how to think critically about public issues and react responsibly to them.

PREREQUISITE: CHC2D1 - Canadian History in the Twentieth Century **or** CHC2P1 - Canadian History in the Twentieth Century **or** CHC2DF - Histoire du Canada au XXe siècle

World History to the Sixteenth Century

CHW3M1

This course investigates the history of humanity from earliest times to the sixteenth century. Students will analyse diverse societies from around the world, with an emphasis on the political, cultural, and economic structures and historical forces that have shaped the modern world. They will apply historical inquiry, critical-

thinking, and communication skills to evaluate the influence of selected individuals, groups, and innovations and to present their own conclusions.

PREREQUISITE: CHC2D1 - Canadian History in the Twentieth Century **or** CHC2P1 - Canadian History in the Twentieth Century **or** CHC2DF - Histoire du Canada au XXe siècle

Understanding Canadian Law

CLU3M1

This course explores Canadian law with a focus on legal issues that are relevant to people's everyday lives. Students will investigate fundamental legal concepts and processes to gain a practical understanding of Canada's legal system, including the criminal justice system. Students will use critical-thinking, inquiry, and communication skills to develop informed opinions on legal issues and apply this knowledge in a variety of ways and settings, including case analysis, legal research projects, mock trials, and debates.

CREDIT: 1

PREREQUISITE: Any University, University/College, or College preparation course in Canadian and World Studies, English, or Social Sciences and Humanities

Analysing Current Economic Issues

CIA4U1

This course investigates the nature of the competitive global economy and explores how individuals and societies can gain the information they need to make appropriate economic decisions. Students will learn about the principles of microeconomics and macroeconomics, apply economic models and concepts to interpret economic information, assess the validity of statistics, and investigate marketplace dynamics. Students will use economic inquiry and communication skills to analyse current economic issues, make informed judgements, and present their findings.
